Brahui is quite distantly related to other Dravidian Languages. Geographically Brahui is an outlier. The major Dravidian Languages are spoken mainly in southern India. Some cognates between Brahui and other Dravidian Languages exist.

Interpretation of John. A. Halloran's Sumerian Lexicon - version -

3. -- Part - 1.
 Ref- <http://www.scribd.com/doc/56256202/John-Alan-Halloran-Sumerian-Lexicon> - up to pages 40 .

While interpreting John - A. Halloran's Sumerian Lexicon - I have used the following -Dravida -Egyptian magical- sacred letters. They are;

1. Aa- **Aakayam**- sky- at a distance ; ka- **Aakayam**- sky / hot ; vaa- **vaanam** - sky ; va> Ka ; ka>vaa ; ki- **kayam** - earth ; vai - **vaiyakam** - earth ; sae/ sa - **Saeyon- Suriyan** -red sun; sa- **Chandran** - moon; su - **pachha** -- water ; Ra- **Orai**-- sun; pa- **puvi** - earth- or ocean- nether world ; an- **andam** - the universe - suffix for men ; Ankh- **ankham** part; Akh- **aakku**- to create; am / ma - **om** - the primordial sound- great- big- thee - -Aa- **thee**-- fire/ heat ; da- **idi** - thunder ; the -- thanni- water / cool .

2. **Add - letters - 'an'- and - 'am' -**
 [occasionally other letters like -Ra- la- the -] as prefix and suffix while interpreting the words apart from using vowels - a - e- i- o- uoo.

My attempt to interpret the Sumerian lexicon strongly suggests that the Sumerian words are words of pure Tamil - language - which is currently in vogue in Tamil Nadu - India. The letters are jumbled in a given word . Hence the words are actually formulae - called as suth' thiram or word puzzles and we have to find out the exact- correct -intended meaning depending up on the context. Since the Tamil people used the suth' thiram -words to communicate, both in writing and speaking, the Tamil language was called as suththira pasai by the Sanskrit scholars in the ancient times..
